DETAILED ACTION

1. Claims 1, 4-11, 15-17, 19-24, 26, 28, 29, and 35-40 are pending. Claims 36 and 38 have been amended in the communication filed 5/23/06 entered as amendment, new or additional drawings and RCE.
2. The drawings filed 5/23/06 still remain objected to as set forth here below.

Continued Examination Under 37 CFR 1.114

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/23/06 has been entered.

Drawings

4. The drawings are objected to because Drawing figures 7 and 8 recite "BIDDING A TENDER". Does Applicant mean "BIDDING ON A TENDER"? Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief

description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 11, 17, 26 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 17 simply recite "A system ..., comprising:". It is vague and unclear as to the type of "system". Does Applicant mean "a computer system" or "a database system" or "an auction and tender system"?

Claims 11, 26, and 35 are unclear and vague as to where the data is being received from for the tender. Is the data being received from a computer or from a user or from a network or some other place?

The claim limitations of claims 15, 16, 23, and 29 would be better incorporated into the first claim limitation of claims 11, 26, and 35. Suggestion: "receiving data for the

Art Unit: 3693

at least one tender via the Internet, ... ;” or “receiving data for the at least one tender via the network, ... ;” .

The dependent claims are also rejected because of their dependency from a rejected base claim.

Conclusion

7. It is not clear from Applicant's claims that “the present invention provides that each auction is a separate auction where buyers bid on a specific output of a seller or sellers bid to supply the needs of a specific buyer” as opposed to a multi-buyer to multi-seller exchange.

Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).
